Finance and
Accountancy

WHO IS IT FOR?

- Senior managers with responsibility for or involvement in the development or implementation of competitive strategy
- Financial managers with a close involvement in a different functional area (eg marketing accountants)

WHAT WILL YOU GET OUT OF IT?

- Finance can add value to strategic decisions, if it is appropriately linked in to the strategic goals and objectives of the firm at corporate and business unit levels. This course demonstrates how financial analysis, planning and control processes can be integrated into the competitive and corporate strategies of the business. Financial information systems and performance measures can be adapted in order to facilitate this. This course illustrates how.

Finance and Accountancy

MASTER FINANCIAL TOOLS & DATA TO MAKE INFORMED, STRATEGIC DECISIONS.

WHO IS IT FOR?

Those who need to understand the financial implications of their day-to-day decisions to increase the profitability and performance of their business. This course is suitable for managers with little or no financial knowledge.

Senior managers ready to become "bigger players" in the corporate environment, and participate more fully in driving financial and business success.

Executive and non-executive directors who need to improve their understanding of financial matters in order to make a more strategic contribution to the financial health of their organisation.

WHAT IS IT ABOUT?

There are immediate financial rewards to be had from making the right purchasing decision. This course provides a complete overview of the purchasing role and how it fits within the wider organisation. It will equip you with practical techniques and knowledge, including topics such as tendering, negotiations and contract law, to make best value purchasing decisions every time.

The fundamentals of bookkeeping explained in a practical, jargon-free overview. This course is about becoming a strategic thinker and planner. You will learn how to analyse key performance indicators and ratios to understand the health of your business and drive its success.

WHAT WILL I GET OUT OF IT?

More effective strategic business thinking

The ability to appraise any business from its financial statements

An understanding of ratio analysis and performance indicators to improve results

Skills to use commonly accepted financial ratios to assess the health of your business

Confidence to negotiate with suppliers for a win-win situation

Strategic Management Accounting

Course Overview

- The need to identify the critical success factors of the competitive strategy of the business unit
- Identify the key strategic thrust of the business unit -links to the management accounting system
- The implications for financial planning and control systems
- This tailored and segmented information can only be efficiently and effectively produced from an appropriately structured FP & C system
- Sustainable competitive advantages normally only result from high risk strategic investment decisions. Such decisions need to be rigorously evaluated and controlled

The Strategic Role of the Management Accountant

Course Overview

- The traditional versus the strategic role of the management accountant
- The essence of strategic thinking / managing for value
- Advisory skills and strategic thinking - the Ta' Xbiex United case study
- Using the strategic option grid, the uncertainty grid and stakeholder analysis on a business dilemma (in your company)
- Opportunities and constraints of a more strategic role
- Action planning - on your role

Working Capital Optimisation

Course Overview

- accountants, managers and directors at all levels can impact the whole working capital pipeline of creditors, debtors, work-in-progress, process costs and product/customer margins
- a rigorous approach to analysing the pipeline can uncover where actions to improve working capital should be focused
- the treatment of working capital significantly impacts not only the accounting information of an organisation but how it is perceived by analysts and the marketplace in general
- issues beyond the current credit crunch loom as future risks to working capital, such as corporate social responsibility, green issues and the cost of dealing with enhanced security

Certificate in Business Accounting

Course Overview

- CO1 - Fundamentals of Management Accounting
- CO2 - Fundamentals of Financial Accounting
- CO3 - Fundamentals of Business Mathematics
- CO4 - Fundamentals of Business Economics
- CO5 - Fundamentals of Ethics, Corporate Governance and Business Law
